DELI GROUP

First opening

Push up the small cover plate on the right of the electronic panel to expose the emergency keypad. Insert the emergency key and turn it counterclockwise. Then turn the emergency key pad as shown, then the yellow indicator light will turn off. The safe will open.

Battery installation
 The battery cover is located behind the door. Remove the battery cover and insert the new batteries according to the polarity. Always ensure you are using new batteries with full charge.

Password setting

The factory password is 158. For safety, please set your personal password in time. Press the emergency key once and yellow indicator light will turn on. Press the emergency key pad as shown, then the new code (3-5 digits) and press the emergency key pad as shown, then the yellow indicator light will turn off. The safe will open. Note: Test the new password with the door open before locking the door.

DELI GROUP

Opening the safe

Input the correct password, press "X" or "Y" key to confirm, the buzzer beep once and green indicator light turns on, please ensure turn the knob to open the door within 5 seconds. If the door does not open, please enter the password again. If you enter the password consecutively times after the 20 seconds lockout, will automatically unlock. Attention: Entering the wrong password 3 more times will lock the safe for 5 minutes.

Locking the safe

Simply close the door and turn the knob counter-clockwise.

Replace the battery

Press "X" or "Y" key after password input, if the red indicator lights up when the green indicator light blinks, that's indicating low voltage. Please replace the batteries.

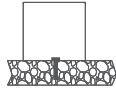

Emergency opening

The emergency keys allow you to open the safe at all times, even when the batteries are run out or you have forgotten the codes. The operation method is the same as first opening.

DELI GROUP
