Thank you for choosing DELI safe box, please carefully read the instructions before use, and according to the instructions to operate correctly.

1. Product Unpacking

After opening the packaging box, please confirm whether the product appearance is intact and check off all accessories. In case of any loss or damage, please contact the dealer.

2. Product Diagram

3. First Use

When first use, please placing the product properly, take off the lock cover, insert the emergency key into the lock hole and turn clockwise to open the door, and then install 4×AA alkaline batteries into the battery box behind the door back.

4. Door Closing Methods

- ① Close the door and insert the key into the keyhole, turn it counterclockwise and then pull out, the door is closed.
- ② Hotel mode: Close the door and input 3-6 digits guest code, press the "Lock" button. When "CLOSED" is displayed, the door is closed.
- ③ Home mode: Close the door and press the "Lock" button directly. When "CLOSED" is displayed, the door is closed.

5. Door Opening Methods

- (1) Guest Password Opening
In the door closed state, enter the user password. When "OPENED" is displayed, the door is open.
- (2) Master Password Opening
In the door closed state, the master password is a 6-digits code. The procedure for opening with the master password as follows: Quickly press the "LOCK" key twice, displaying "SUPER." Enter the current valid master password (default master password is "000000"), and when "OPENED" is displayed, the safe door will be opened automatically.

6. Change Guest Password

In the open state (make sure the locking bolts fully retracted), push the door and enter a new 3-6 digit user password, then press the "LOCK" button. When "CLOSED" is displayed, the door is closed automatically, and the new user password has been successfully modified.

7. Change Master Password

To change the master password, the safe box must be in the open state (with the locking bolts fully retracted). Follow these steps:
Enter "CLEAR" key twice consecutively, displaying "PROG".
Input the current valid master password (default master password is 000000). Press the "LOCK" key, "NEW" displayed. Then enter a new 6-digits master password. Press the "LOCK" key, displaying "DONE", indicating the password successful modification.

8. Switching Between Home and Hotel Modes

- (1) Press the "CLEAR(*)" button twice, displaying "PROG".
- (2) Press the digits "711469", showing the programming interface. Details for mode switching are as follows:
 - ① Home Mode: Press the digits 117051, then press the "LOCK" button three times consecutively to switch to home mode.
 - ② Hotel Mode: Press the digits 117050, then press the "LOCK" button three times consecutively to switch to hotel mode.

9. Battery Energy Detection

Press the "LOCK" key to enter the battery energy detection procedure. If the display shows "BATT-H" indicates the battery voltage is normal. If the display shows "BATT-L" indicates the battery voltage is low, please replace the battery. If "BATT-L" is displayed when the door is closed, the battery voltage is low and the battery needs to be replaced as soon as possible.

10. Points for Attention

- (1) When the password is entered incorrectly, press the "CLEAR" key to delete all.
- (2) If the password is entered incorrectly, the display shows "E-CODE" and the buzzer sounds an alarm. You can reattempt the operation.
- (3) If the incorrect password is entered continuously four times, the display shows "HOLD-5", and the system enters a 5-minute automatic lockout state. After 5 minutes, you can retry the operation.
- (4) In hotel mode, after entering the password, press the "LOCK" key to lock the door. In home mode, could be directly press the "LOCK" key to lock the door. (The default setting is hotel mode.)

11. Precautions for Use and Installation

- (1) Do not place the User's Manual, emergency keys, and external battery box in the box, store them in another safe place instead.
- (2) If the product is not used for a long time, remove the battery to prevent leakage from damaging the electronic system.
- (3) For the sake of safety, be sure to fix the cabinet on a solid concrete wall.

Installation layout
